

English 英文科

Aims

1. To develop a school-based curriculum according to students' ability, needs and interests.
2. To promote self-directed learning and help students apply the knowledge and language skills through the integrated use of the language.
3. To develop students' confidence in using English for classroom communication through collaborative learning, group discussion and other classroom activities.
4. To increase students' motivation in learning and using English as a media of communication.
5. To create a language-rich environment to facilitate students' learning.

Major Concerns

1. To enhance students' learning effectiveness by establishing self-regulated learning culture.
2. To strengthen students' ability to speak and express themselves using compassionate communication skills.
3. To enhance teachers' professionalism and equip teachers with more teaching tools and strategies.
4. To promote English reading and strengthen students' writing skills.
